

The FCC should not take any action that would lessen Indiana's Telephone Privacy law.

Prior to the law I was getting 7-10 calls per week. Many of these during dinner time affecting my family time after work. Now I don't get any! Family time is more important than any telemarketing call.

My phone number is unlisted and still these people were getting my number to call me.

Do not take any action that would give these people another way to start these calls again.

Thank You.
